Hungry? We know how you feel! We couldn't find a decent place to get a dog or a burger either, let alone a little something special that you don't see too often. Even the places that are supposed to be good aren't so good. So, we set out to fill that gap, and created Forklift. Life's too short to eat bad food. If you want a real natural casing beef hot dog that is bigger than the bun; if you want a big juicy burger that is made by hand from scratch; if you want an ice cold glass bottle of soda that reminds you of the ones you had when you were a kid, then stop by Forklift. If you enjoy your meal, then bring a friend the next time. Or, come and visit us at one of the festivals.
